

PABLO SEBASTIAN URIARTE BETANCOURT

Junior Python Automation Developer

667 197 9283 | Pablouruarte1@outlook.es | [LinkedIn](#) | [GitHub](#) | [Portfolio](#)

PROFILE

Early-career software engineer focused on Python automation for data-heavy and operational workflows. I turn repeatable manual processes into scripts and local tools for data capture, web automation, validation, file handling, and reporting.

SELECTED PROJECTS

Document Automation Suite | Local operations tool

Python, Playwright, Flask, PDF processing

- Built a local dashboard to run Python and Playwright workflows for document downloads, validation, organization, and structured uploads.
- Implemented process status and terminal-output visibility to support recoverable, repeatable document workflows.

AARC ERP | Public ERP demo

Next.js, MySQL, Drizzle ORM, RBAC

[Live demo: aarc-erp-demo.vercel.app](#)

- Built an isolated operations demo that centralizes employee, credential, vacation, catalog, and export workflows with fictional data.

PROFESSIONAL EXPERIENCE

Data Entry Specialist | SEGALMEX (Seguridad Alimentaria Mexicana)

May 2023 - December 2024

- Automated data capture, web scraping, bulk file editing, and Word and Excel report generation with Python scripts.
- Captured and validated producer data, land records, contracts, and billing information for operational workflows.

Intern | AARC del Río Culiacán

May 2022 - May 2023

- Created Python scripts and Excel automations for tax certificates and bulk-account upload files; provided computer support, software installation, and backups.

EDUCATION

Bachelor's Degree in Software Engineering | Universidad Autónoma de Occidente

Completed July 2026

TECHNICAL SKILLS

Automation: Python, Playwright, web scraping, data extraction, file processing, Excel automation. Web and tools: Flask, Next.js, MySQL, PostgreSQL, Git, GitHub, Vercel. Quality: Vitest, repeatable process design.
